# Constitution Quiz Showdown

The player's guide. Everything you need to set up, play and win, in plain language.

A quiz show on the Constitution of Ghana and the nation around it, for one to five players. Free to play, works offline once installed.

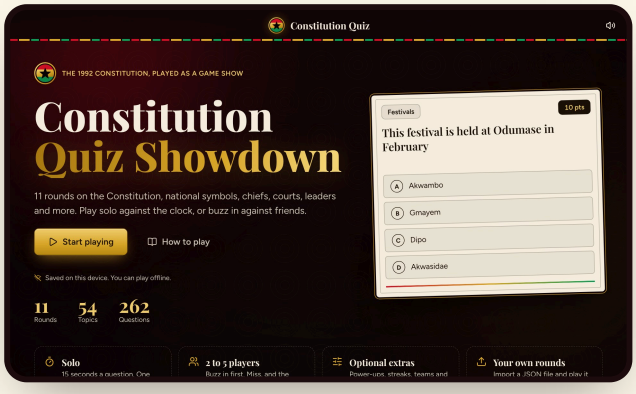

WELCOME

# Let’s play

Constitution Quiz Showdown turns what you know about Ghana’s Constitution, symbols, leaders and institutions into a game show. Pick a topic, choose how many points to play for, and beat the clock.

## What you need

- A phone, tablet or computer with a web browser.
- One to five players. Everyone shares the same device and takes turns buzzing in.
- About 20 minutes for a round, or 2 minutes for a quick-fire sprint.
- No account, no sign-up and no data to hand over.

The home screen. Press **Start playing** to begin.

## What is inside

- **11 rounds** on the Constitution, flags and oaths, chiefs and courts, leaders, amendments and more.
- **54 topics** and **262 questions**, each worth 10 to 50 points.
- Solo, multiplayer and team play.
- Optional extras such as power-ups and streak bonuses.

## In this guide

**10** Scores and sharing 12

**11** Install, shortcuts and help 13

# Your first game in five steps

1. **Open the game**
   Go to the game's web address. It opens on the home screen.

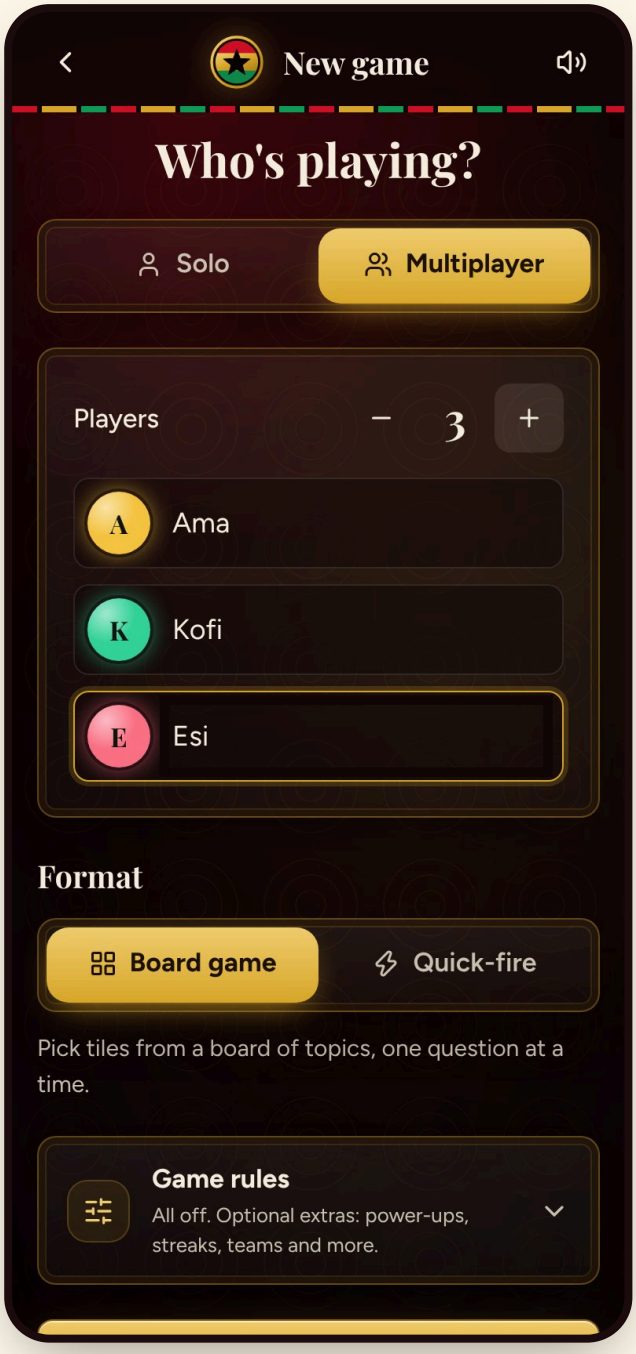

2. **Press Start playing**
   You will be asked who is playing.

3. **Choose Solo or Multiplayer**
   Solo is you against the clock. Multiplayer is two to five people taking turns on one device.

4. **Pick a round**
   Each round is a board of topics. Start with Round 1 if you are not sure.

5. **Pick a tile and answer**
   Low numbers are easier. Choose an answer before the clock runs out.

> **Good to know**
> Your game is saved automatically on your device. If you close the page, press **Resume** on the home screen to carry on.

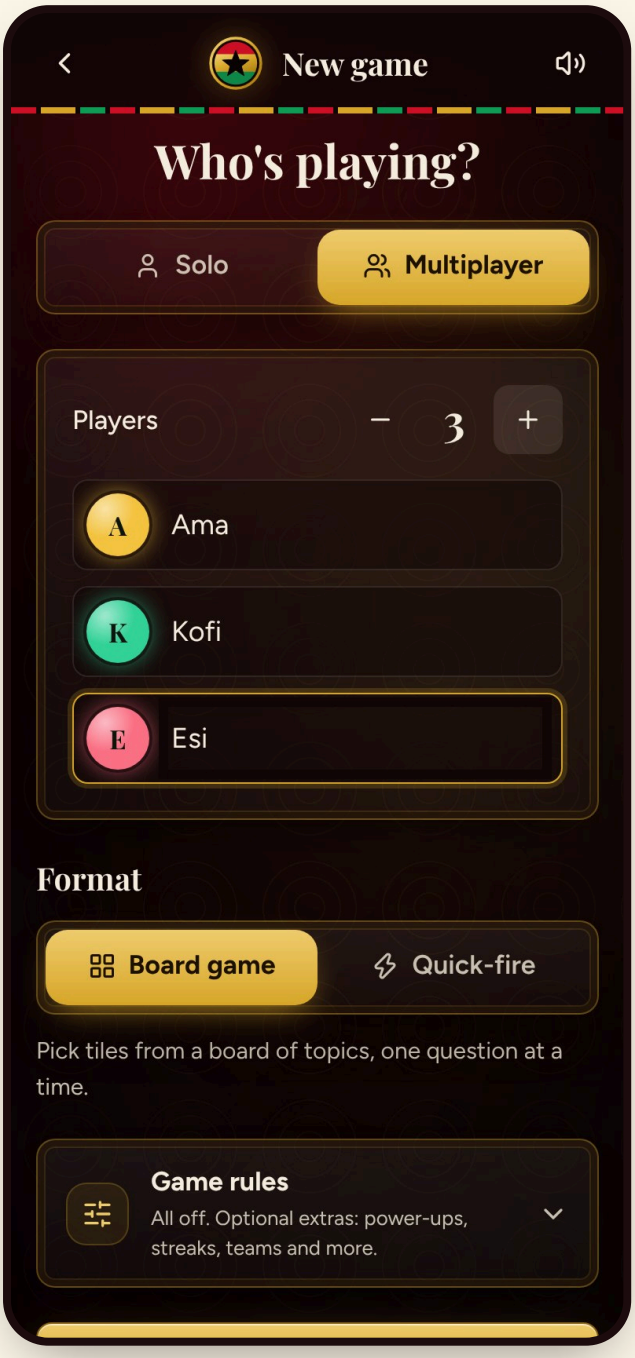

The "Who's playing?" screen.

2 · SETTING UP

# Who’s playing?

Everything is chosen on one screen. Nothing is complicated, and you can change your mind before you start.

Three players, board game format.

## Solo or Multiplayer

**Solo** means one player. You get 15 seconds per question and a single try.

**Multiplayer** is for two to five players. Use the plus and minus buttons to set the number, then type a name for each person. Names must be different.

## Format

**Board game** is the classic: pick tiles from a board of topics, one question at a time.

**Quick-fire** is a timed sprint of random questions with no board (see page 10).

## Game rules

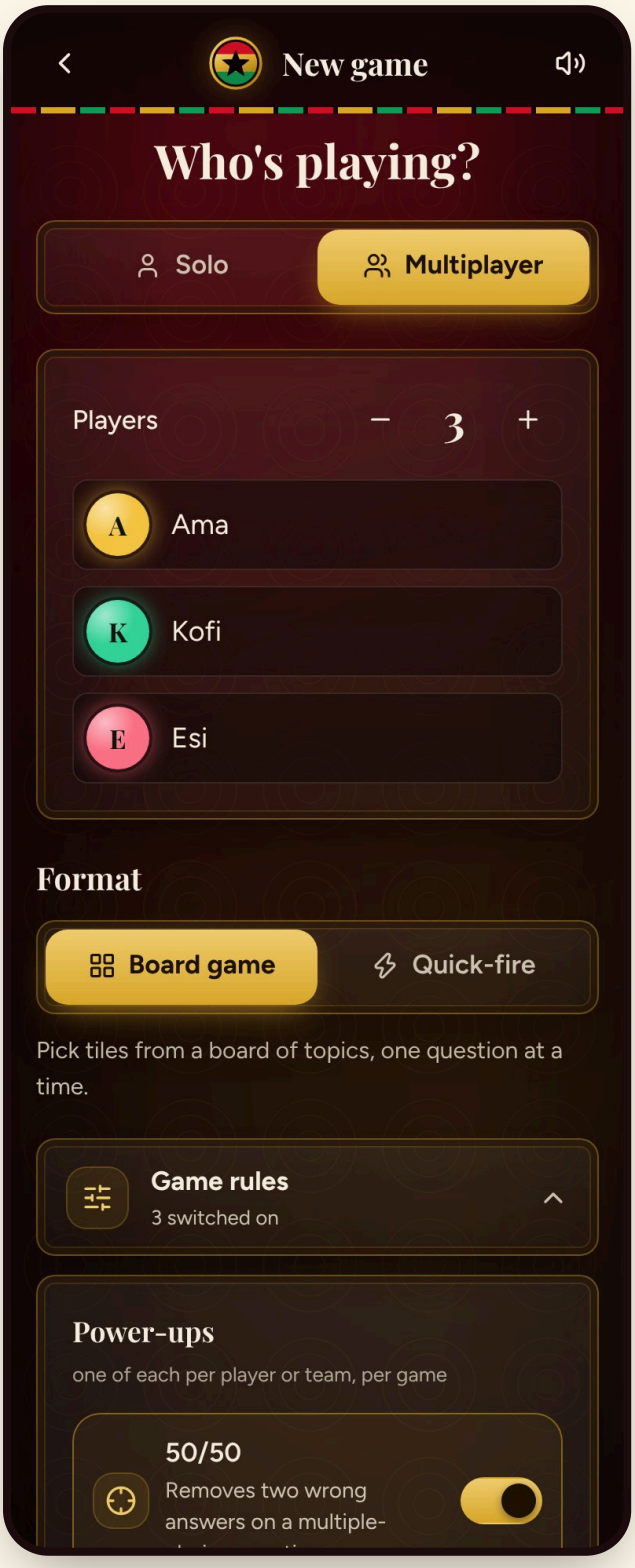

Tap **Game rules** to open the optional extras. Everything is switched off until you turn it on, so a standard game is always simple.

> **Ready?**
> Press the gold button at the bottom: **Choose a round** (or **Start quick-fire**).

3 · OPTIONAL GAME RULES

# Spice it up, or keep it simple

These extras are all off by default. Switch on only what you fancy. You can also change them in the middle of a game from the **Rules** button.

Game rules with 50/50, Double or nothing and Streak bonus switched on.

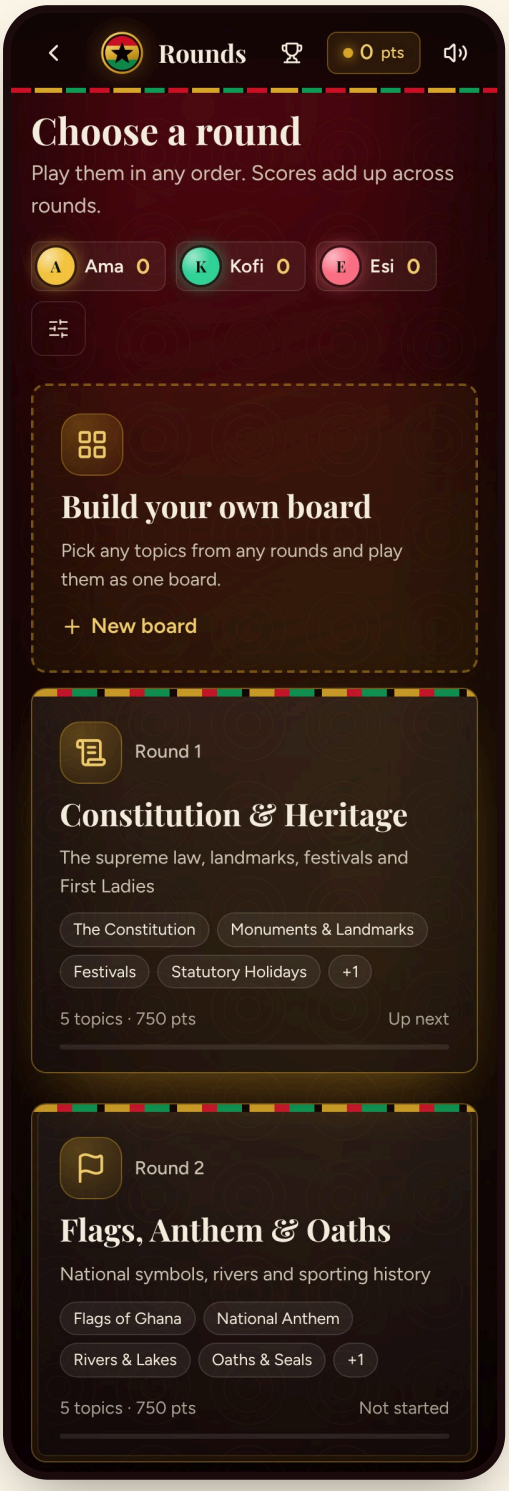

| Extra | What it does |
|---|---|
| **50/50** | Removes two wrong answers. Once per player or team, per game. |
| **Skip** | Skip a question with no penalty. In multiplayer it passes the question on. |
| **Double or nothing** | Correct pays double. Wrong loses the whole tile. |
| **Streak bonus** | Each correct answer in a row adds a bonus to the next one. You choose the step (5, 10 or 20%) and the cap (25, 50 or 100%). |
| **Negative marking** | Wrong answers and timeouts cost 25, 50 or 100% of the tile. |
| **Speed bonus** | The faster a correct answer, the more extra points (up to 25, 50 or 100%). |
| **Teams** | With 3 to 5 players you can make up to 3 teams. Scores, streaks and power-ups are shared by the team. |

> **Tip for families and classrooms**
> Start with everything off. Add **50/50** once everyone knows the board, then try streaks and teams.

4 · CHOOSING A ROUND

# Eleven rounds, play them in any order

Each round has its own board. Scores add up across rounds, so you can play one tonight and another tomorrow.

The round list. The next round to play is highlighted.

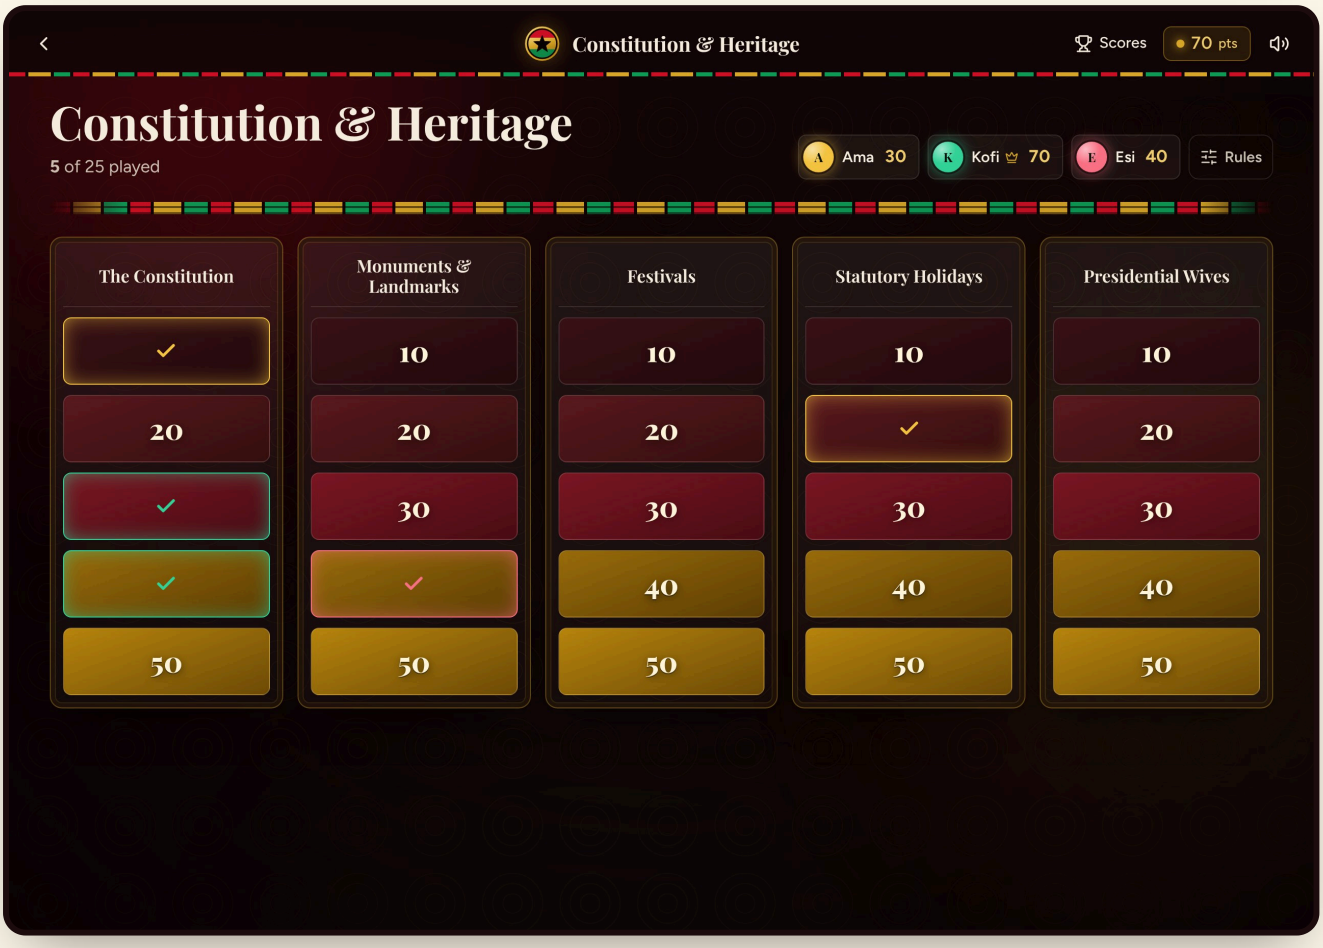

| Round | About | Topics |
|---|---|---|
| **1. Constitution & Heritage** | The supreme law, landmarks, festivals and First Ladies | 5 |
| **2. Flags, Anthem & Oaths** | National symbols, rivers and sporting history | 5 |
| **3. Forests, Parliament & Arms** | Mountains, the House and the Coat of Arms | 5 |
| **4. Chiefs, Climate & Courts** | Chieftaincy, the Constitution and a changing climate | 5 |
| **5. Minds & Quotes** | Scientists, writers and words that shaped politics | 5 |
| **6. Numbers & Leaders** | Statistics, sporting stars, wildlife and heads of state | 5 |
| **7. State, Forces & Campus** | The Council of State, insignia, weather and universities | 5 |
| **8. Health, Honours & Screen** | Health, pageants, national awards, Americana and film | 5 |
| **9. Institutions & Wildlife** | Institutions, national parks, conservation sites and Ghana abroad | 5 |
| **10. Firsts, Finance & Europe** | Pioneers, public money and Ghana-EU ties | 4 |
| **11. Amending the Constitution** | Entrenched clauses, the Council of State, referendums and assent | 5 |

The first card, **Build your own board**, lets you mix topics from any round (see page 11). When you have played at least one question, **Finish game and see results** appears at the bottom.

5 · THE BOARD

# Pick a tile, choose your risk

Each column is a topic. Each tile is a question. The bigger the number, the harder the question and the bigger the prize.

Round 1 part-way through. Ticks show who won a tile, a cross is a missed one.

## Tile colours

| | |
|---|---|
| 10 | Easiest. Warm-up questions. |
| 20 | Easy. |
| 30 | Medium. |
| 40 | Hard. |
| 50 | Toughest. Go for it! |

## Played tiles

A tile can only be played once. After it is played it shows:

- **A tick** in the winner's colour: someone got it right.
- **A cross**: nobody got it.
- **A skip arrow**: it was skipped.

> **Round complete**
> When every tile is played you will see a celebration and buttons for the next round, the scoreboard or to finish.

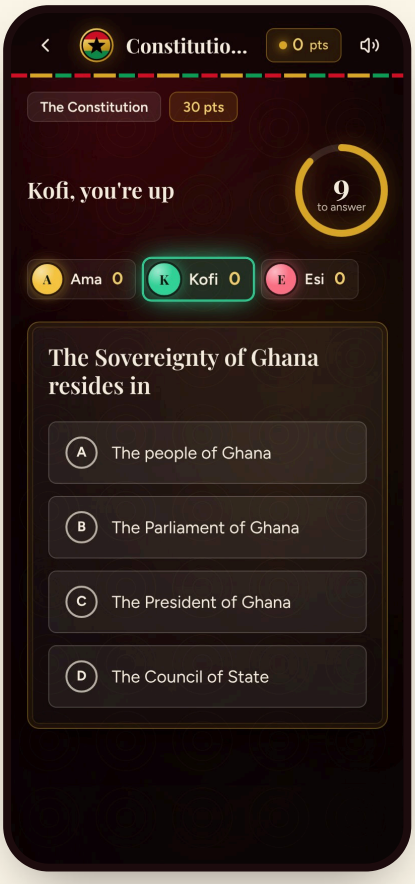

6 · ANSWERING QUESTIONS

# Beat the clock

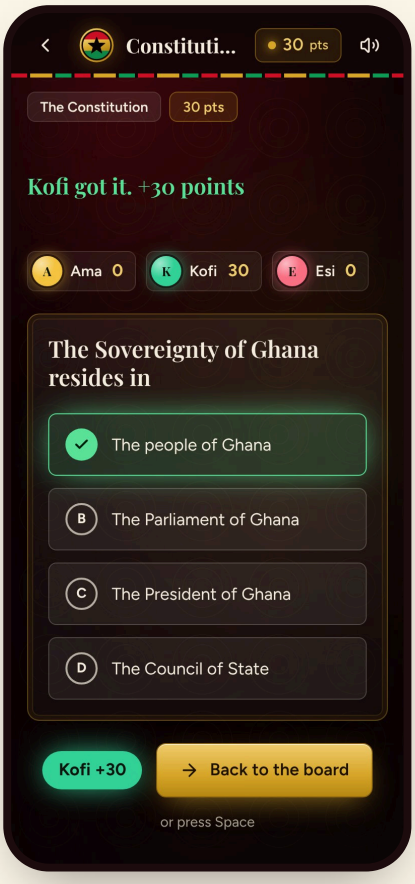

The question screen is the heart of the game. Here is how it works for solo and for groups.

**1. Buzz in.** Everyone gets 30 seconds to buzz in. Tap your name, or press your number key.

**2. Answer.** The buzzer gets 10 seconds to choose A, B, C or D.

**3. Reveal.** The right answer turns green and points go to the winner.

## Playing solo

There is no buzzing. You have **15 seconds** and one try. Tap your answer.

## Playing with others

The first person to buzz answers. If they are wrong, or time out, they are out for that question and everyone else can buzz again. A wrong answer is crossed out for all players.

**Typed answers**

Some imported questions ask you to type the answer instead of choosing. Type it in the box and press Submit.

**Left by mistake?**

If you press Back during a question, the game asks you first. Leaving forfeits the tile.

7 · HOW POINTS WORK

# Simple by default

With no extras, a correct answer earns the number on the tile. A wrong answer or a timeout earns nothing.

## The basics

| Situation | Points |
|---|---|
| Correct answer on a 30 tile | **+30** |
| Wrong answer or timeout | **0** |
| Skipped tile | **0** |

## With extras switched on

| Extra | Example |
|---|---|
| Streak bonus (10% step) | Third correct in a row on a 30 tile: 30 + 20% = **36** |
| Double or nothing | Correct on a 30 tile: **60**. Wrong: **−30** |
| Negative marking (50%) | Wrong on a 40 tile: **−20** |
| Speed bonus (up to 50%) | Answering very fast on a 20 tile: up to **30** |

## Ties and winners

The player (or team) with the most points at the end wins. If scores are level, the game says **It's a tie**.

## Where to see points

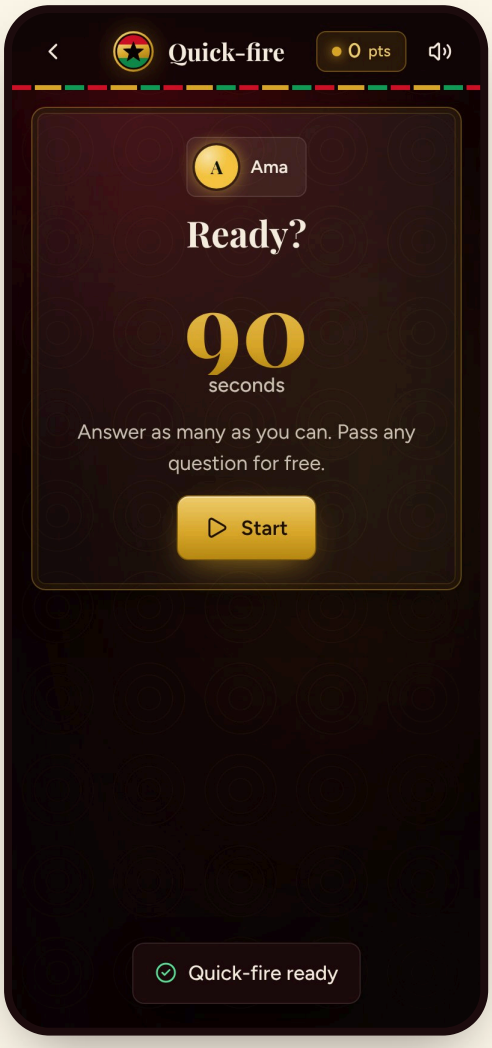

- The gold pill at the top shows the top score.
- Player chips above the board show everyone's score.
- After each answer a small summary shows how the points added up.

> **Fair play**
> Scores are worked out from the list of answers, so they always add up correctly, even if you refresh the page.

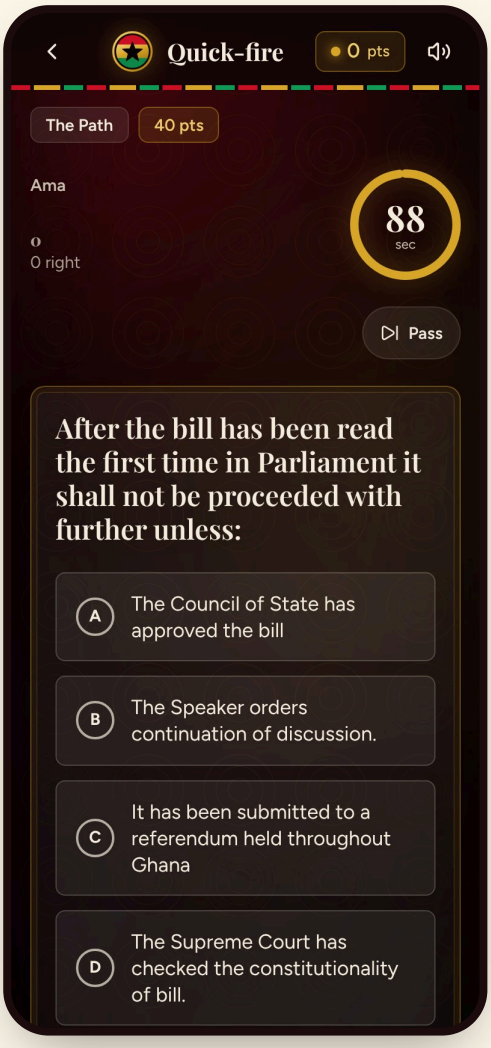

8 · QUICK-FIRE

# A two-minute sprint

No board and no choosing tiles. Questions from across the rounds come at you as fast as you can answer.

**Ready?** Each player takes a turn. Press Start when you are set.

**Play.** Answer as many as you can before the ring runs out.

- Choose **60, 90, 120 or 180 seconds** on the setup screen.
- Pick which rounds the questions come from.
- **Pass** any question for free.
- Streak, speed, negative marking, 50/50 and Double or nothing all work here too.

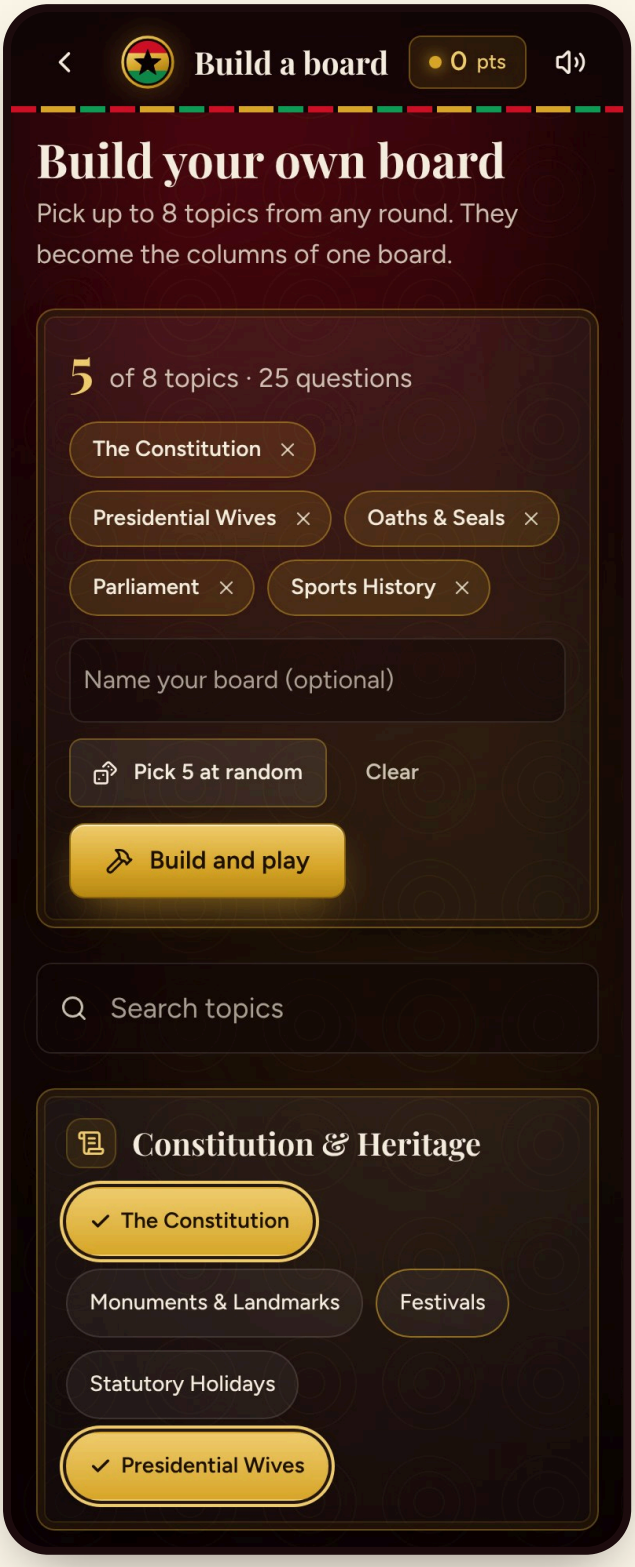

**Need at least 8 questions**

If you narrow the rounds too much the game will ask you to select more.

9 · MAKE IT YOURS

# Your own boards and rounds

Mix topics for a revision session, or bring in a quiz of your own.

Build your own board: pick up to 8 topics.

## Build your own board

1. **Open Choose a round**
   Tap the dashed card, **Build your own board**.
2. **Pick topics**
   Choose up to 8 topics from any round. Use search, or **Pick 5 at random**.
3. **Name it and play**
   Press **Build and play**. Your board is saved for later.

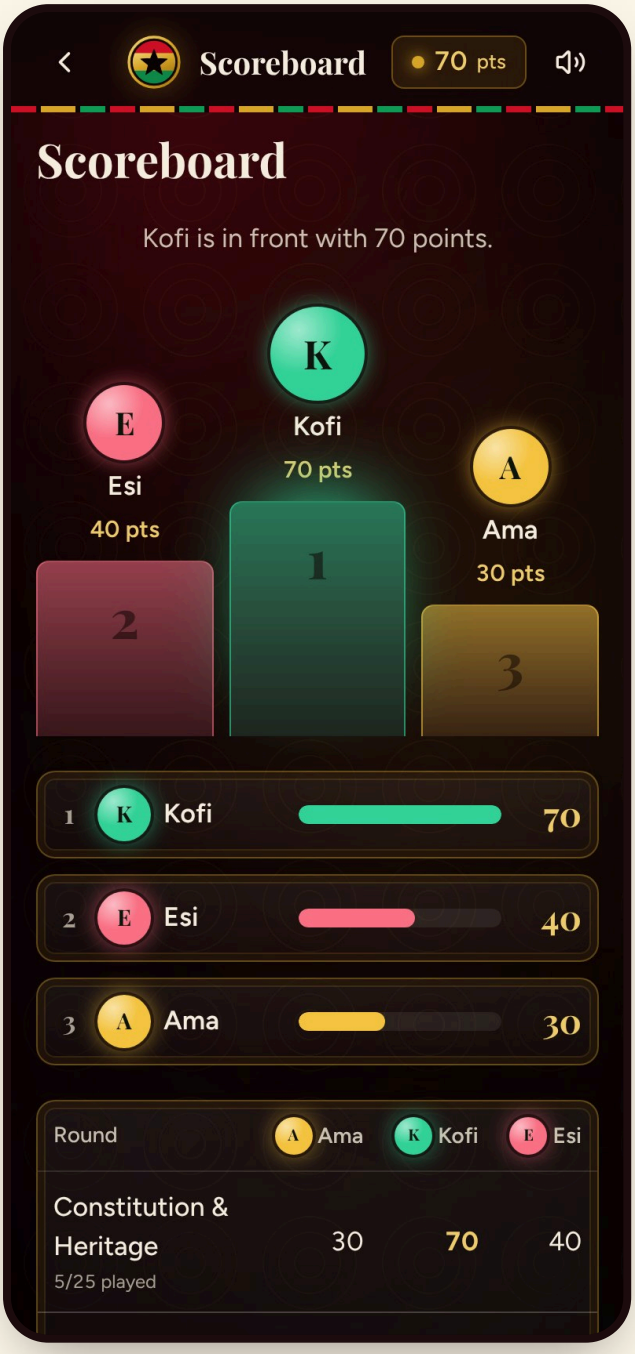

## Import your own round

At the bottom of **Choose a round**, drop in a **.json** quiz file, or tap to choose one. Press **Template** to download an example to copy. If anything in the file is wrong, the game tells you exactly what to fix.

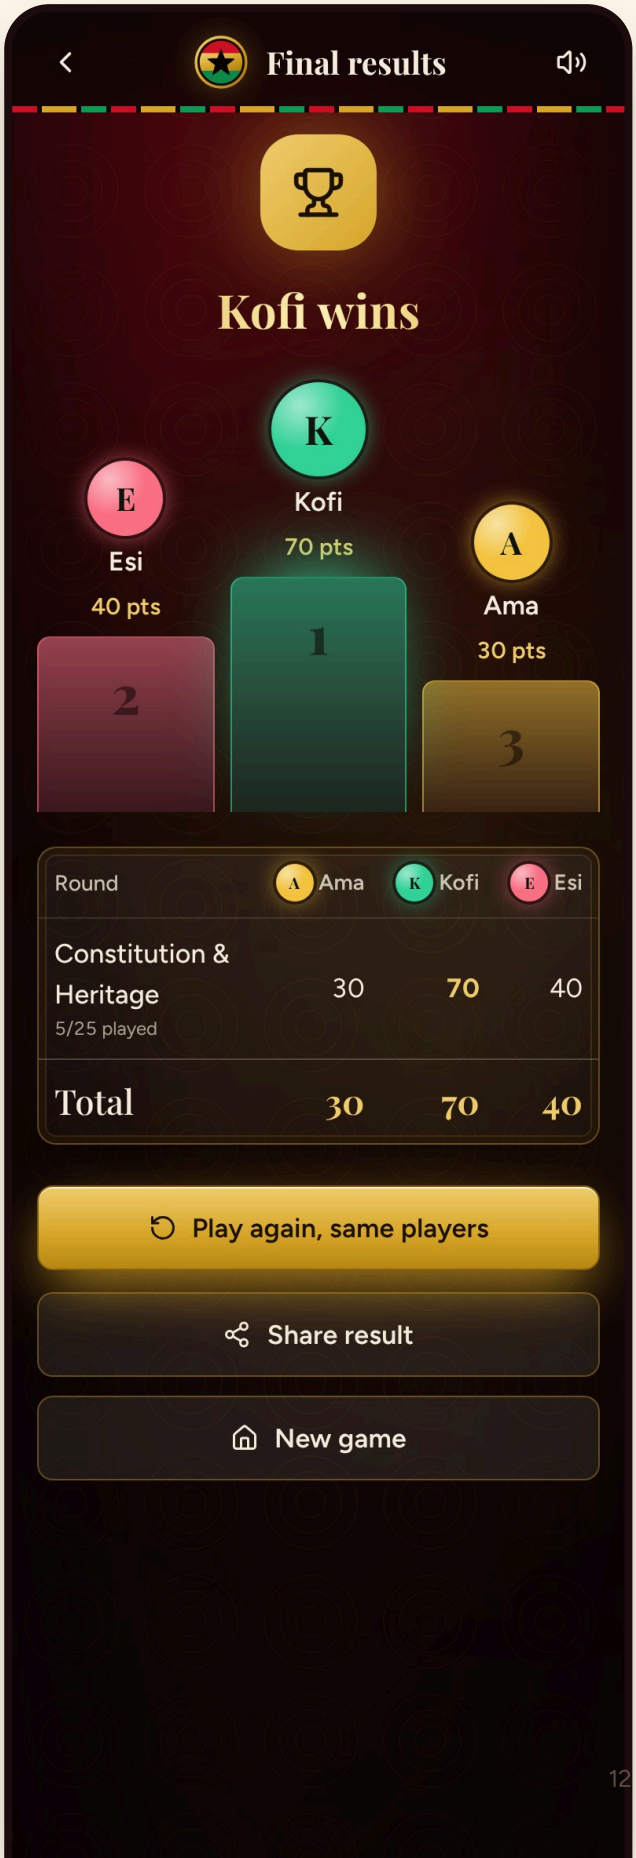

> **Pictures and videos**
> Imported questions can include an image or a video. Ask whoever looks after the game to add the files.

# Who takes the crown?

Check the scoreboard at any time during a board game, and finish with a podium.

**Scoreboard.** Open it from the **Scores** button at the top.

# Handy things to know

## Play offline

After your first visit the game works without internet. To keep it on your phone like an app:

- **Android or computer (Chrome):** press **Install app** on the home screen.
- **iPhone or iPad:** tap Share in Safari, then **Add to Home Screen**.

## Keyboard shortcuts

| | |
|---|---|
| 1 – 5 | Buzz in as player 1 to 5 |
| A – D | Choose an answer |
| Space / Enter | Continue |
| P | Pass (quick-fire) |

## Questions and answers

**Can I stop and come back?**
Yes. Your game is saved on this device. Press Resume on the home screen.

**Can I mute the sound?**
Yes, use the speaker button at the top right.

**Why can't I press a tile?**
It has already been played. Pick a numbered one.

**A wrong answer took points away. Why?**
Negative marking or Double or nothing is on. Check **Rules**.

**I want to start again.**
On the home screen press **Discard**, then Start a new game.

**Does it need an account?**
No. Nothing leaves your device.

> **Have fun**
> Take turns, cheer loudly, and learn something about Ghana's Constitution along the way.

# Ready to play?

Open the game, press **Start playing**, and may the best scholar win.
